

WE BELIEVE IN CARING FOR PEOPLE

MEET ELLIFF MOTORS

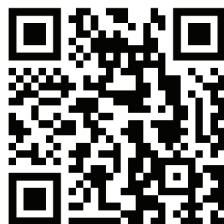

When a COVID-19 outbreak threatened Elliff Motors, the owners reached out to their Frontier family to help mitigate the risk to their employees. That day, FDC staff administered testing, identified those who needed to be quarantined, and prescribed a precautionary immune-boosting vitamin regimen for all, as well as medication for the positive cases. Because of quick action from Elliff Motors and FDC, employees felt safe and cared for, and were able to go back to living life with their families faster and business continued to grow.

MEET JENNIFER GOMEZ

When Jenni's fertility specialist started ordering regular blood panels throughout her pregnancy, she never considered that her husband's top tier insurance would require over \$75 co-pay each time. It took out-of-pocket costs adding up to \$450 before realizing there was another option. With a simple phone call she found that, through her membership at Frontier, she only has to pay \$4.50 per blood panel. Jenni now books appointments via Frontier with no wait time and receives a visit, lab test, and results reading in 24 hours all for \$4.50 as opposed to a \$75 co-pay.

WE BELIEVE IN TRANSPARENT PRICING

MEET AMY BEALE

When a life threatening seizure led to the discovery of Stage 3 brain cancer for this young mom of 3 rambunctious boys, Frontier Direct Care was able to walk the chaotic journey of cancer treatment with Amy Beale. From hospital visits, ambulances rides, brain surgery, MRIs, and even COVID-19, Frontier was there. And even better? Because the Beales were enrolled in medical cost sharing, their medical bills of over \$800k were shared by the community, leaving them paying their Initial Unshareable Amount of \$1500.
